BRECHT GOYVAERTS SBC

CINEMATOGRAPHER

It all started when he watched his older brother develop his own photos in his darkroom. Few years later he graduated from Film School, the urge to make images and to see the world through a lens could no longer be ignored. After assisting and doing chores on different sets for a short period of time, he had the chance to light and shoot a few music videos himself which catapulted him into the advertising world.
After a few years in this environment, he felt the need to tell (longer) stories, to create worlds and atmospheres, to dig deeper and connect with directors and their crew-members in a different way. He did a few short movies and soon he got the chance to shoot a 6-episode miniseries.
After more than 10 years, Brecht is still in love with his passion, hoping he can continue to do what he feels he's made for : shooting all kinds of different beautiful projects (feature films, series, commercials) all over the world, meeting interesting people and learning every day.
